

BASILDON & BRENTWOOD PUBLIC HEALTH PARTNERSHIP STRATEGIC PLAN

Basildon Council
BASILDON • BILLERICAY • WICKFORD

Introduction

The B&BPHP Group has the responsibility for the delivery of this strategic plan on behalf of the Brentwood Health and Wellbeing Board and the Basildon Health and Wellbeing Partnership. The partnership will ensure that all partner organisations support the delivery of pertinent services in line with this strategic plan. This group acknowledges the wider challenges around the improvement of health and wellbeing amongst the residents of Basildon and Brentwood, but have chosen to prioritise its focus on the following areas with very specific actions as detailed in the tables below:

1. **Ageing Well** – Ageing is more widely viewed as a positive concept and it's about ensuring that when we are older we have lives that have value, meaning and purpose, lives through which we can continue to contribute to our families, our communities and the wider economy. It comes with a wide range of challenges for which we continue to spend much time to prepare society. Although we cannot aspire to resolve all these challenges, we will aim to focus our attention on some core areas for improvement and to help the local residents to age well.
2. **Tackling Obesity and Improve Physical Health** – Obesity continues to pose a serious threat to health and wellbeing and is seen as an increasing burden on public services. Regular, physical activity is associated with increased life expectancy and reduced risk of coronary heart disease, stroke, diabetes, hypertension, obesity, and osteoporosis. As part of its commitment to improve health and wellbeing and to assist local residents in becoming more healthy and active, local partners will focus their efforts on a work programme that will promote more physical and recreational activities amongst local residents. We will make best use of local community assets and help to develop other low-cost/no-cost opportunities working collectively.
3. **Mental Health and Wellbeing** - The concept of mental health and wellbeing is not yet sufficiently reflected in the planning, development and everyday delivery of public services. Feelings of contentment, enjoyment, self-confidence, positive self-esteem and engagement with daily living are all a part of mental health and wellbeing. With the growing of number with dementia and mental health conditions, we must continue to work to support those in need and help build self-resilience to cope.

BASILDON & BRENTWOOD COMMUNITIES – HEALTH AND WELLBEING PRIORITIES and ACTIONS (2016-2018)

PRIORITIES	LOCAL OUTCOMES				
Ageing Well	1.People are enabled to live well, safely and independently, for as long as possible in their own homes	2.Older People and Carers are supported to care for themselves and others and have easy access to advice and support	3.Local residents enjoy positive activities and are physically and emotionally healthy	4.People positively support each other within their own communities	5.Local residents have more targeted Mental Health support (locality focus)
Physical Health & tackling obesity					
Mental Health & Wellbeing					
STRATEGIC APPROACH AND COLLECTIVE ACTIONS					
Achieve better from the use of collective resources	Maximise the use of community assets		Promote resilience and positive choices		
Health, local government and community and voluntary sector services working in partnership with local residents to allow every individual to enjoy the best possible health and well-being that they can, to stay independent for as long as possible and to create strong resilient communities. We will map partnership resource against each of the priorities and	We will work with local communities to identify and develop locality based assets that will enable them to help themselves and each other; ensuring they have the skills, support and resources to manage these assets on an on-going basis. Residents will be happy and proud to live in their communities and will be valued. They will be enabled to develop and access their own physical and recreational activities		We will provide a shared platform for information, advice and guidance (IAG) that enables residents to become more resilient and self-reliant; encouraging them to stop and think before they access public services. We will help residents to understand what they can do to help themselves, how they can help others and what options they have for accessing support when they need it. We will		

<p>explore how that resource might be used more efficiently and effectively. We will encourage, new partners to support the delivery of our objectives, for example we will encourage businesses to boost their contribution through greater commitment to volunteering and mentoring. We will collaborate to better integrate and jointly commission services and support such as for emotional health and wellbeing.</p> <p><i>We will use a range of indicators to measure success, including outcomes delivered as a result of engagement with services and the experience of service users.</i></p>	<p>that promote healthy living.</p> <p><i>Optimised utilisation of local provision and use of community assets such as parks, community centres/schools and libraries will be an indication of success.</i></p>	<p>work alongside local communities to develop solutions which meet their needs. We will encourage individuals and families to make well informed choices which will lead to them becoming and staying emotionally and physically more healthy.</p> <p><i>Success will be measured by people reporting a change in behaviour and choices as well indicators like number of attendances at accident and emergency, referrals to social care and increased use of local pharmacies.</i></p>
<p>Creating opportunities to promote physical and related recreational activities</p>	<p>Mental Health and Wellbeing</p>	<p>Other actions to tackle obesity</p>
<p>We have a shared commitment to assist local residents in becoming more healthy and active. Most people are not regularly active and we are aiming to take on the challenge to encourage more residents to be more active, more often.</p> <p>We will work to align local schemes under the local Active Essex programme.</p> <p>We will agree a Cycling Strategy for Essex</p>	<p>We will work with local communities, the voluntary sector and local government to provide hands-on opportunities to people with mental health issues to engage in meaningful activities within a community – centred approach including drop in services such as Brentwood’s Colour Me In drop in service.</p> <p>Initiatives will not only aim to improve the mental health and wellbeing of individuals living within the community but will continue to contribute positively to other aspects of</p>	<p>We will continue to engage with local food businesses to encourage them to provide healthier food choices, helping to reduce salt, fats and sugar through the reduction of portion sizes, alterations to menus and promoting healthier choices. Promotion of this project will continue to be carried out through both councils webpage’s.</p> <p>Find new and improved methods with the use of technology and media streams to engage with local food businesses and with members of the public to encourage healthier eating schemes.</p>

<p>and work on developing a real-time detailed mapping process with the intention of establishing a wide network of identifiable on and off-road cycle pathways right across the two boroughs.</p> <p>We will also explore further opportunities to promote more children to walk/cycle to school safely and increase their physical activity during school time and after school.</p> <p>We will build on existing schemes and seek further opportunities to help people age more healthily through improved physical fitness and building muscle strength.</p> <p><i>We will use a range of indicators to measure success, including the establishment of designated safe walking and cycling route; the number of schools reporting new schemes in place; the number of new schemes to promote physical health in people aged 50yrs and over.</i></p>	<p>individual's health, which may include increased physical activity and increased rates of employment.</p> <p>We will build on existing local initiatives and will explore further opportunities to promote support networks available within the local areas and to support people living within the community to gain better mental health and wellbeing.</p> <p><i>Success will be measured using a range of indicators including established activities, support groups and drop in sessions aimed at improving mental health and wellbeing; feedback from these sessions; levels of attendance.</i></p>	<p>We will work in partnership with schools to explore further opportunities to support them in projects focused on supporting actions to tackle obesity including Live Well Child.</p> <p><i>Success will be measured using a range of indicators including the number of food businesses who have pledged to providing healthier food choices within the local area and these food businesses reporting a change in the way they prepare their foods; online data from Essex Weighs IN; Number of schools signing up to healthier schools initiative and (tbc.)</i></p>
