#### **4 Issue, Options and Analysis of Options**

- 4.1 The Scrutiny function works best when the committee undertakes its work both in member groups and by receiving formal committee reports. It is proposed that in 2017/187, where possible, member working groups be set up as Task and Finish Groups under the terms of reference of the Corporate Projects Scrutiny Committee.
- 4.2 The advantages of this approach include:
- Task and Finish groups would provide a structure to make recommendations to the relevant committee.
  - They would provide Scrutiny with a clear purpose, a robust work plan and appropriate officer support for its pre-scrutiny role; reports and information would be prepared by Officers.
  - Consultation would be built into the policy making process ensuring robust policy development and would avoid delays at the end of the process from last minute call ins.
  - A wider group of members would be included in any corporate projects.
  - Membership for any task and finish group may be from across the whole Council, not just the Corporate Projects Scrutiny Committee.

#### **5 Reasons for Recommendation**

- 5.1 The Constitution requires that the Corporate Projects Scrutiny Committee agrees its work programme at each meeting of the Committee.

#### **6 Consultation**

- 6.1 None.

## **7 References to Corporate Plan**

- 7.1 The vision of Transformation includes an action to improve the Council's governance arrangements, leading to faster, more effective decision-making. An effective scrutiny function is an essential element of that priority.
