## \* "IT SPECIFIC ACTIONS/QUESTIONS"

- Are our systems safe, secure and fit for purpose? For example, secure against cyber attack?
- Under GDPR's "right to be forgotten" do all our systems enable erasure of personal data on an individual basis?
- Do we/can we pseudonymise or anonymise personal data?
- Consider email deletion policy (auto-deletion) after say 1 year of all emails not saved outside of Outlook.
- Can we always produce a person's personal data electronically and in a 'commonly used format'?
- Encryption arrangements satisfactory?
- Cyber Security arrangements satisfactory?
- Other threats to IT security identified and actions to be taken?
