Isolation of parents		Who let the dads out - Who Let the Dads Out The project supports men who have become new fathers during the pandemic by providing a free café/play style environment so dads can connect with other dads. The project will also support fathers with children of toddler and pre-school age. Workshops will be delivered to fathers with new babies and fathers to be. The group also plan to educate mothers and mother-to-be on the signs and symptoms of mental health in fathers with young children.	who let the dads out		Reducing isolation amongst parents, particularly dads. Increased awareness for new mums on how to recognise signs of Mental health in expectant and new dads. Group will complete monitoring report.		600
Early Communication and Language	TBC but before March 2022 (likely to be Jan 2022 for 10 weeks)	Elklan Training		15 programme.	Early years settings staff to increase their confidence and knowledge/awareness around supporting children in their settings around communication and language and passing this knowledge onto their colleagues to support the children across their setting. Early Years Education partner would monitor during settings visits and monitor impact in their observations. Feedback from each setting. On sign up we could request numbers of children in that setting so we can establish the reach of the	2190 - each person from a setting to contribute £50 towards the cost to get a further reach	1440
