1. Executive Summary

This report is before Members to monitor and review the complaints received through the Council's formal complaints process and provide information on the number of Freedom of Information requests received to date. It is intended through the future introduction of a Customer Relationship Management (CRM) system the council will be able to understand, monitor and manage better customer's complaints and requests.

2. Recommendation(s)

2.1 That the Committee notes the complaints received through the Council's formal complaints process and the number of Freedom of Information Requests received.

3. Introduction and Background – Corporate Complaints

3.1 The Council has a two stage complaints process which has provided a very successful route for customers to take issue with any perceived failure to provide a service, failure to respond to requests or failure to adhere to standards on the part of the Council and its officers.

3.2 The process itself has two stages. In the first instance, the complaint is forwarded to the Head of Service for the department concerned for a full investigation into the complaint. If the complainant is not satisfied with the response from the Head of Services they can request the Complaints Co-ordinator to conduct a second stage investigation into the matter. At both stages, the Council aims to respond fully following the investigation within 20 working days. The Council is currently reviewing its Complaints procedure and the information it presents to Members.

4. Issue, Options and Analysis of Options

If the complainant remains dissatisfied following the Stage 2 response, it would be appropriate for them to approach the Local Government Ombudsman should they choose to do so.
